# Human Lactation in the LGBT Community

**Session 2:**  
Clinical  
Applications &  
Case Scenarios

Open to All WIC Staff &  
Community Partners

**Learning objectives:**

- 1) Utilize inclusive language in the treatment of patients who identify as LGBTQIA+
- 2) Provide more sensitive antepartum, intrapartum, and postpartum care for the LGBTQIA+ community
- 3) Use evidence-based medicine to support LGBTQIA+ patients who choose to breast/chestfeed their infants.
